

FIRE STOPPING MEASURES FOR RIVERSIDE HOUSING GROUP Installation of fire barrier

Case Study

Project Value: £XXX // Programme: XXX

OVERVIEW

As part of our continued working relationship with Riverside Housing Group, Frank Rogers was commissioned to install a fire barrier for some of their social housing.

SCOPE OF WORKS

Our in-house Fire Stopping Division identified and installed a specialist fire barrier with an integrity of 60 minutes. It would provide insulation for 60 minutes from fire, making the property safer for residents and visitors and ensuring it complies with current Fire Safety Regulations.

FRANK ROGERS AND RIVERSIDE

Frank Rogers is delighted to have been working with Riverside, one of the largest registered providers of social housing in the country, for four years. Covering the whole of Riverside North, which spans Wigan, Cumbria, Hull, Humberside, Yorkshire and everywhere in between, our team has completed several thousand actions consisting of installing fire doors, fire door upgrades, cavity barriers, and compartmentation work.

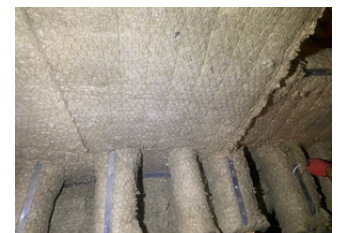

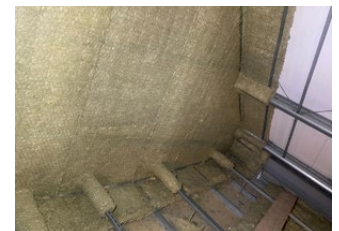

Working with Riverside has been a great success to date, and we'd like to thank them for continuing to use us as a trusted supplier for their organisation.

CUSTOMER SATISFACTION & TESTIMONY

Nicola Haslem, Senior Building Safety Inspector for Riverside said;

"The contractors on site worked so efficiently and were well-mannered and polite. They were extremely tidy in carrying out the work and have done a fantastic job."

"It's a pleasure to know they are working on my schemes and peace of mind for me that the work will get done to the required standard that I feel Riverside and its tenants deserve."
